

FOR IMMEDIATE RELEASE

Hitachi Automotive Systems Announces to Exhibit Stereo Camera and Automated Parking System for Integrated Vehicle Control System and other Systems at the 2015 Automotive Engineering Exposition

Conceptual image of booth

Tokyo, May 13, 2015 --- Hitachi Automotive Systems, Ltd today announced that the company will exhibit at the 2015 Automotive Engineering Exposition to be held from May 20 to 22 at the Pacifico Yokohama Exhibition Hall in Yokohama, Japan, under the sponsorship of the Society of Automotive Engineers of Japan, Inc. The company will showcase a wide range of products and systems powered by leading-edge environment, safety and information technologies developed by the Hitachi Automotive System Group to advance mobility into the next generation and beyond.

A first focus of the exhibits will be synergy solutions. These include ADAS (Advanced Driver Assistance System) control units and other ADAS technologies required for sophisticated driver support. High-efficiency ICE (Internal Combustion Engine) system aimed at accelerating the evolution of this type of currently market-dominating engine are also being presented. Motors, inverters, batteries and other key components of electric powertrain systems are being featured to accent the high compatibility of these systems with future intelligent cars.

The mobility technology car display is designed to give visitors a first-hand look at a broad lineup of Hitachi Automotive Systems Group environment, safety and information technology-intensive products using a real-scale car mockup.

At the 2015 Automotive Engineering Exposition, Hitachi Automotive Systems, Ltd. will exhibit technologies for automated parking jointly with Clarion Co., Ltd., at the Hitachi Group booth (Booth number 316).

■About Hitachi Automotive Systems, Ltd.
